

Comfort top link

Hydraulic telescopic top link cat. 2

Work in the field

- ✓ **Ground tracking**
 - smooth running clearance for ground-based devices
- ✓ **Hydraulic implement relief**
 - adjustable at any time for tilt function
- ✓ **Handling**
 - larger slope angle through targeted tilting

Transport

- ✓ **shock absorption through integrated pressure accumulator**
 - ideal for tractors without own vibration damping

Maintenance

- ✓ **better accessibility by tilting the device**

Operation

- ✓ **intuitive und controllable**
 - with double-acting control unit
 - with pressure gauge
